the oklahoma city bombing intentional crashing of airliners on september 11 2001 and anthrax attacks in the fall of 2001 have made americans acutely aware of the impacts of terrorism these events and continued threats of terrorism have raised questions about the impact on the psychological health of the nation and how well the public health infrastructure is able to meet the psychological needs that will likely result preparing for the psychological consequences of terrorism highlights some of the critical issues in responding to the psychological needs that result from terrorism and provides possible options for intervention the committee offers an example for a public health strategy that may serve as a base from which plans to prevent and respond to the psychological consequences of a variety of terrorism events can be formulated the report includes recommendations for the training and education of service providers ensuring appropriate guidelines for the protection of service providers and developing public health surveillance for preevent event and postevent factors related to psychological consequences

academic paper from the year 2018 in the subject law criminal process criminology law enforcement grade 1 0 university of ljubljana fakultät für angewandte sozialwissenschaften language english abstract an individual coming into prison represents a form of sanction that society inflicts on the individual for the deviation of its moral and juridical laws while a deprivation of liberty causes several consequences for the imprisoned people both during detention as well as after release it is not seldom that the psychological consequences are the most serious ones the circumstances of living in a place where one's safety and human dignity is likely to be threatened on a daily basis are usually challenging to the maintenance of a sound mental condition the size of the challenge varies from prisoner to prisoner and occurs in many forms the special social environment a prison consists of is likely to cause the process of prisonization to happen within the prisoners it's causes and impact are subject to this term paper

color coded terrorism alerts are issued then lifted with no explanation false alarms can like crying wolf desensitize people to a real need to be on alert and that psychic numbing is just one effect discussed in this book by fifteen psychologists teamed up to take a critical look at the u s war on terrorism these experts are led by the chairman of an american

psychological association task force charged with pinpointing the effect of our anti terrorism efforts on american mental health together they present the most up to date and intriguing picture we have of the fallout on our own people from our own programs the text spotlights stereotyping of foreigners increased domestic hate crimes fear depression and helplessness as well as increased militancy and belligerence especially among students perhaps most disturbing in the land of the free we also see increasing acceptance of restrictions on our personal freedoms and acceptance of human rights violations color coded terrorism alerts are issued then lifted with no explanation false alarms can like crying wolf desensitize people to a real need to be on alert and that psychic numbing is just one effect discussed in this book by fifteen psychologists teamed up for a critical look at the u s war on terrorism these experts are led by the chairman of the american psychological association task force charged with pinpointing the effect of our anti terrorism efforts on america s mental health together they present the most up to date and intriguing picture we have of the fallout on our own people from our own programs the text spotlights fueled stereotyping of foreigners increased domestic hate crimes fear depression and helplessness as well as increasing militancy and belligerence especially among students perhaps most disturbing in the land of the free our attention is drawn to growing acceptance of restrictions on our personal freedoms and acceptance of human rights violations contributors to this collection aim to give us a reality check looking at what our national reactions to terrorism have been how those reactions have affected the psyche of our people and whether this has made us stronger or weaker and more or less likely to be the target for future attacks

the book achieves its goal of encouraging the reader to think broadly about how the consequences of violent victimization can be measured understood and prevented the authors also achieve their goal of emphasizing the need for multiple research methods and multiple theoretical perspectives for understanding the effects and implications of violent crime the book would certainly be a useful resource for students studying psychology or criminology and is likely to be of interest to professionals who work with victims of violent crime crime prevention and community safety an international journalwhat are the effects that violent crime has on our everyday lives both in terms of the individual victims and their larger community this unique text draws from both the fields of criminology and psychology to provide a comprehensive examination of the two major areas that are most significantly

effected by violent crime the crime victims themselves and the larger sphere of their families friends neighborhoods and communities beginning with a discussion of the how we measure and study violent victimization the authors r barry ruback and martie p thompson look at the immediate and long term impact violent acts has upon the direct victims social and psychological consequences of violent victimization examines secondary victims family members neighbors friends and the professional involved with investigating and prosecuting the crime and helping the victim and also impacts of violent crime on neighborhoods and communities the authors conclude with recommendations of effective interventions that can be made at the levels of the individual the community and the criminal justice and mental health systems this book s one of a kind focus on both the psychological and social impact of crime makes it an invaluable supplementary text for criminal justice and criminology courses dealing with victimization violent crimes and the criminal justice process the book will also interest professionals in victim services crime prevention criminal justice and social work

a quarterly review of philosophy

this volume introduces the concept of perpetration induced traumatic stress pits a form of ptsd symptoms caused not by traditionally expected roles such as being a victim or rescuer in trauma but by being an active participant in causing trauma sufferers of pits may be in the roles of soldiers executioners or police officers where it is socially acceptable or even expected for them to cause trauma including death scattered evidence of pits is consolidated its implications are explored and exciting potentials for future research are suggested compared to the more widely understood ptsd there appears to be greater severity and different symptom patterns for those affected by pits obvious differences to be explored for those who kill include questions of context guilt meaning content of dreams and sociological questions leading to special implications for therapy research into the causality of ptsd and violence prevention efforts disciplines including sociology public policy history philosophy and theology will also find applications for this groundbreaking material
