Mindset: The New Psychology of Success is a complete summary. *Mindset: The New Psychology of Success* is a book by Carol S. Dweck about human thoughts and how these thoughts can greatly influence the way we live our everyday lives. This book is written in the form of a self-help book, so readers will find many interesting and educational tidbits of advice on how to live the best life possible. What is really interesting and worth admiring about this book is that Dweck did a tremendous amount of work before she wrote her book. Based on many observations during many years of research, the author developed something called a mindset of how different humans perceive different things in different ways and thus live differently. The author recognized that based on her observations, there are two distinct, radically different mindsets. However, both of these separate mindsets can be connected with some success. Truly interesting literature to read and to study. *Mindset: The New Psychology* today is a book that is here to open new horizons. The book itself is never boring or dull.
