employers are required by law to provide safety manuals however the occupational health and safety administration osha as the name suggests applies only to people in occupations in other words employees osha does not apply to nor are there entertainment industry standards specifically for students volunteers and outside users of school theatres but your school theatre is not just another classroom classrooms don't have hundreds of pounds of equipment hanging over students heads that students operate and catwalks hanging 30 in the air that students work in the inescapable fact is that these dangers and more are inherent in any school theatre but nowhere in the real world are people let alone minors legally allowed to work in these conditions without stringent safety policies and procedures

to protect personal safety and without liability protection for the institution this applies to senior high school theatres junior high school theatres middle school theatres and even some elementary schools that have theatres even if your performance space is an auditorium or multi purpose room school theatre safety applies to you too regardless of the size or type of your theatre and the age of your students it's essential to provide a school theatre safety manual and to enforce school theatre safety rules to everyone who uses your school theatre this high school theatre safety manual is a policies and procedures document of safety standards intended to control and minimize the hazards typically found in your school theatre it addresses proper training equipment maintenance the dissemination of appropriate information and enforcement of policies and procedures in order to maintain a safe and healthy environment for everyone in your school theatre this high school theatre safety manual is a comprehensive compilation addressing the safety conditions found in a wide range of high school theatre operations simply cut the pages out of this book 3 hole punch all of the pages photocopy the pages onto your school or district letterhead and place the pages of the safety manual into a three ring binder some pages can also be photocopied and hung on the walls backstage in your scene shop etc as constant reminders of the safety rules

late in his life the intrepid traveler and translator richard francis burton distilled his understanding of story as it applied to live performance into this book how to see a play the title implies that most people watch plays but don't really perceive the structure of the storytelling and that they would benefit from his experience with how and why the theatrical experience has been so powerful here is his preface this book is aimed squarely at the theater goer it hopes to offer a concise general treatment upon the use of the theater so that the person in the seat may get the most for his money may choose his entertainment wisely avoid that which is not worth while and appreciate the values artistic and intellectual of what he is seeing and hearing this purpose should be borne in mind in reading the book for while i trust the critic and the playwright may find the discussion not without interest and sane in principle the desire is primarily to put into the hands of the many who attend the playhouse a manual that will prove helpful and so far as it goes be an influence toward creating in this country that body of alert theater auditors without which good drama will not flourish the obligation of the theater goer to insist on sound plays is one too long overlooked and just in so far as he does insist in ever growing numbers upon drama that has technical skill literary quality and interpretive insight into life will that better theater come which must be the hope of all who realize the great social and educative powers of the playhouse the words of that veteran actor manager and playwright of the past colley cibber are apposite here it is not to the actor therefore but to the vitiated and low taste of the spectator that the corruptions of the stage of what kind soever have been owing if the public by whom they must live had spirit enough to discountenance and declare against all the trash and fopperies they have been so frequently fond of both the actors and the authors to the best of their power must

naturally have served their daily table with sound and wholesome diet and again he remarks for as their hearers are so will actors be worse or better as the false or true taste applauds or discommends them hence only can our theaters improve or must degenerate not for a moment is it implied that this book or any book of the kind can make playwrights playwrights as well as actors are born not made at least in the sense that seeing life dramatically and having a feeling for situation and climax is a gift and nothing else the wise cibber may be heard also upon this to excel in either art he declares is a self born happiness which something more than good sense must be mother of but this may be granted while it is maintained stoutly that there remains to the dramatist a technique to be acquired and that practice therein and reflection upon it makes perfect the would be playwright can learn his trade even as another and must to succeed and the spectator our main point of attack as was said the necessary coadjutor with player and playwright in theater success can also become an adept in his part of this cooperative result this book is written to assist him in such cooperation

excerpt from acting and play production a manual for classes dramatic clubs and little theatres producing plays is an art as those who have tried it will testify it is therefore no doubt a kind of impertinence to write a manual on the subject at all as the arts are notoriously unteachable nor is it main tained that the mere following of this pro posed course in dramatics will produce a renaissance in acting what is hoped is that it may give some valuable suggestions for avoiding error plot out a path that is not too thorny and help the actor and di rector perhaps even by its very imperti mence to rise on the stepping stone of its dead body to a realization of that higher genius that is creatively at work in them for genius like the winds of inspiration about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
